

Technical drawing of a mechanical part showing dimensions 126, 96, and R22.

Technical drawing of a 90-degree elbow. The drawing shows a side view of the elbow with a horizontal inlet and a vertical outlet. The dimensions are: 28 (horizontal distance from inlet to elbow center), R6 (radius of the elbow), 95 (vertical distance from elbow center to outlet), and 3* (thickness of the elbow wall).

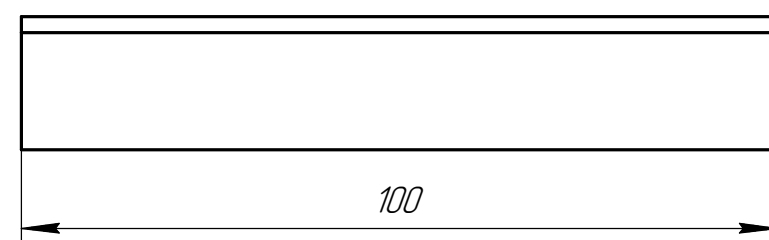

Technical drawing of a mechanical part. The part has a total width of 58 and a total height of 30. It features a central circular hole. The top and bottom edges are composed of straight and curved segments. Two vertical dashed lines indicate internal features or symmetry.

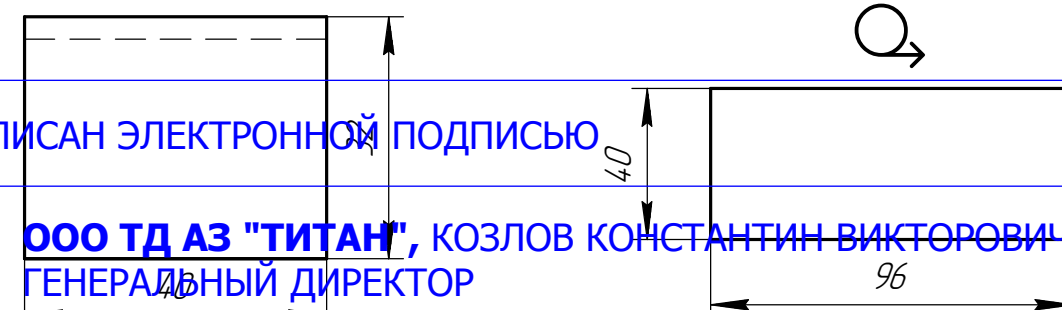

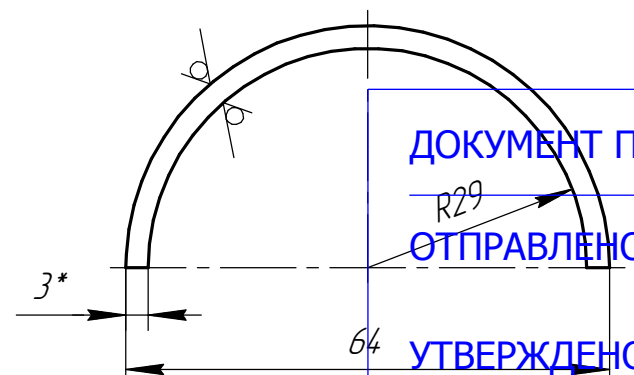

-
- Technical drawing of a rectangular plate. The main view shows a rectangle with a width of 100 and a height of 40. A detail view on the right shows a hole with a diameter of 3, indicated by the symbol $\varnothing 3$.

Technical drawing of a U-shaped metal part. The drawing shows a front view with the following dimensions and features:

- Overall width: 74
- Overall height: 30
- Radius of the top arc: R32
- Inner diameter of the hole: $\phi 10^*$
- Thread specification: M10-6g
- Distance from the bottom of the hole to the center of the arc: 6.3
- Angle of the hole: $16 \times 45^\circ$
- Distance from the center of the hole to the center of the arc: 2

A diagram of a rectangular plate. The vertical dimension on the left is labeled 100, and the horizontal dimension at the bottom is labeled 63. A force vector Q is shown at the top right corner, pointing downwards and to the right.
